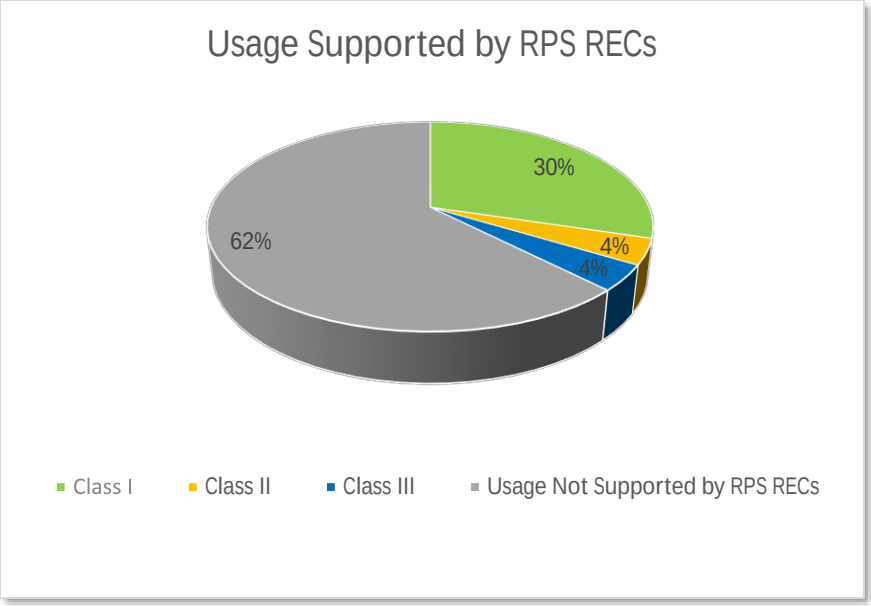
Renewable Energy Certificate Information

**This offer meets CT's 2025 minimum of 38%
mandatory renewable energy certificate requirements.**

All suppliers must purchase a minimum amount of renewable energy certificates* (RECs) from generating sources based on the amount of electricity the supplier sells in Connecticut to meet the state's Renewable Portfolio Standards (RPS).



The RECs must be from these sources:
Class I 30% – solar, hydroelectric, wind and Fuel Cell
Class II 4% - trash-to-energy sources
Class III 4% - Combined Heat and Power facilities, energy efficiency projects.

Learn more about CT's RPS requirements at CT RPS Overview:
https://portal.ct.gov/pura/rps/renewable-portfolio-standards-overview.

** All renewable energy certificates represent the attributes of renewable generation sources as defined in Connecticut statute. To learn more about RECs visit EnergizeCT at https://energizect.com/rate-board-energy-certificates.* ***The supplier's purchase of these renewable energy certificates DOES NOT mean that the specific electricity that you are buying through this offer comes from the renewable sources indicated on this Label.*** *Please refer to the next page (generation source information) to see the makeup of the electricity delivered.*
