Direct Energy Services, LLC

Generation Price

Average price per kWh for customers at different levels of use (in the period 01/01/2023 – 12/31/2023). Prices do not include regulated charges for customer service and delivery.

The price you pay for generation is set forth in the individualized agreement between you and Direct Energy Services, LLC. If you have any further questions about what you pay for electricity per kWh, please contact the Direct Energy Services, LLC customer service number below.

Contract

Contract Terms: You will receive a fixed or variable electricity supply price for the number of months specified in the Term section of your Massachusetts Electric Supply Contract Summary. After that, your contract will automatically renew to a new price at the end of the contract term unless you inform Direct Energy otherwise. The new price may be higher or lower than the existing price. Direct Energy will contact you no later than thirty (30) days before each automatic renewal to notify you of your supply options.

Air Emissions

Carbon dioxide (CO₂), nitrogen oxide (NO_x) and sulfur dioxide (SO₂) emissions rates from these sources in the period 01/01/2023 through 12/31/2023 relative to the regional average, and to the emission rates of a new generating unit.

Labor Information

76% of electricity associated with Direct Energy Services, LLC came from power sources with union contracts with their employees. Labor information based on information provided by ISO New England, Inc. for the period Jan. 1, 2022 through December 31, 2022. Information regarding labor disputes is not available.

Notes:

1. Electricity customers in New England are served by an integrated power grid, not particular generating units. The above information is on generating units under contract to DES in the period 01/01/2023 – 12/31/2023.
2. You may also call DES at 1-800-764-0232 or the Massachusetts Division of Energy Resources at 1-617-626-7300.
3. Direct Energy Services, LLC will purchase and retire renewable energy certificates representing the environmental attributes associated with the applicable amount of renewable energy produced from hydro energy generation facilities in the U.S. You will not have electricity from a specific generation facility delivered directly to your service address, but your purchase ensures that renewable energy equal to 100% of your paid electricity usage is produced using renewable resources and delivered to the U.S. power grid on an annual basis.
